

Annual Report 2025

Our vision is to have a society where children and youth have access to programs and resources to thrive and impact their community.

Our mission is to empower children and youth by providing inclusive programs for wellness, skill development, and leadership.

Overview of Our Work in 2025

The 2025 marked a period of resilience, strategic growth, and deepened community impact for PendoAmani. Despite a challenging funding landscape that led scaling down of school - based outreach, our core programs achieved remarkable milestones in youth empowerment and health education. We successfully engaged over 3,700 direct participants across our programs. Our **"all-year-round"** approach fostered long-term mentorship and growth pathways for the youth.

Key Strategic Highlights

- We transitioned from basic skills training to career development. This is evidenced by our Digital Media Hub, which saw 12 alumni secure decent income through self-employment and formal jobs, and our Sports Program, which produced a female volunteer now officiating at the county level.
- Our Health and Wellbeing program delivered transformative results. Peer learning sessions led to a 34% increase in SRHR knowledge and a significant rise in mental health resilience, with more youth reporting the confidence to seek help from trusted adults.
- The music program supported 98 students and facilitating 10 public performances. The collaboration with professional teachers from Sweden has elevated their music playing mastery and organization.
- We maintained a strong focus on "youth-led" development, supported by 30 volunteers. Our advocacy efforts were bolstered by reaching 338 parents and securing the active participation of local administration leaders in our stakeholders' forum.

Navigating Challenges

The primary obstacle encountered this year was the limitation of funding, which impacted our school outreach programs and highlighted the urgent need for infrastructure upgrades. Specifically, our Digital Media Hub requires new computing equipment to support modern software requirements.

Through the generous support of partners like the Baylor Men's Choir and the Komolion Fund, PendoAmani remains a beacon of hope and a hub for development. We invite our stakeholders to review the detailed progress within this report as we continue to build a future where every youth is equipped to lead and thrive.

Sports Program (Football and Handball)

1,680
participants
reached in both
the football
league and
handball

For Annette, football was her pathway to building strong leadership. Beginning as a dedicated player in our local girls' team, she transitioned into leadership by training as a referee. Today, she is a certified official officiating matches at the county level, proving that our investment in female leadership creates tangible career pathways in professional sports.

Dafina Orchestra Music Program

98 (68% female) music students participated in year-round music program (Beginners, Intermediate, advanced)

Dance Program

Through dance
the program
reached 102
young people

Eda and Chantelle joined our dance program as children aged 11 and 10. Now 18 and 17, they have grown from shy participants into confident performers and peer mentors. Their journey exemplifies our philosophy of "meeting young people where they are"

Library and Resource Centre

Throughout the year the resource centre has supported 554 students with 78% retention rate of repeat students. They were supported with learning materials and after school homework support

Computer Literacy and Media

**112 students
completed
computer literacy,
graphic design and
media skills
(photography and
video editing) with
98% graduating.**

Health and Wellbeing Program

Conducted 16 peer learning session reaching 1,252 participants 57% female.

A third-quarter tracer survey revealed significant behavioral and knowledge shifts in the following indicators;

- SRHR Knowledge Score 54% to 88%
- Modern Contraception Uptake (for 19+) 34% to 68%
- Confidence in Saying "No" / Seeking Help 12% to 52%
- Mental health Staying Calm / Talking to Adults 22% to 38%

Building a Culture of Youth Leadership

**8 person
secretariat and 22
dedicated
volunteers.**

Porridge Program

Porridge is served 3 times a week and we managed to provide over 25,000 cups of porridge. Enabled sustained attendance and participation in our programs, helped participants manage short term hunger and gained good nutrition

Parental engagement

**338 parents through
counseling sessions and
hosting a Stakeholder
Forum that engaged local
administration leaders.**

Vote of Thanks

We extend our deepest gratitude to the Baylor Men's Choir, whose students repainted our centre and conducted a medical camp, and the Komolion Fund Sponsors for their continued partnership in our mission. Special thanks to the music teachers who conducted online class sessions and to all volunteers who make this work possible. God bless you richly.
